Function 75 – Farm

Farm Job Titles & Levels		174
75.10.11	Assistant Farm Manager	175
75.10.21	Farm Manager	176

Food & Drink Salary & Benefits Survey

Introduction

This booklet contains the job descriptions used for job matching. The survey is designed to provide organisations in the local area with access to up-to-date information on pay and benefits.

Survey Confidentiality

The survey is strictly confidential and the results are only sent to those organisations that contribute their salary information. The survey results should be kept in the HR departments of the participating companies. Where information from the survey is shared with senior management it must be presented in analysed forms only.

Job Matching

Each participant in the survey is expected to match as many of the jobs as they have in their organisations although it is not expected that every organisation will match every job.

Survey Frequency

The survey is run continuously. This means that, once they have joined, the survey participant will receive a questionnaire when they are known to have had a major salary review and they will be expected to update their information by the deadline specified.

Online Services & Results

The survey results are posted on the Alan Jones website (www.alan-jones.co.uk) and accessible using your Alan Jones user name and password. Using 'Instant Analysis' you can drill down into the information, see your own position vs the survey group (statistically and in chart form) and you can drop results into Excel or export them to pdf (using the Instant Analysis link).

From Instant Analysis, you can also download the survey in full in Excel and pdf versions including your personalised copies of the survey results. A different view of the results is shown in the 'Click & View' tool which gives a job by job view of the results including the relevant job description.

Other services are available using links in your client home page. In addition, there is a link to a tutorial on how to use our services.

Benefits

With this survey there is a benefits section covering holidays, pension contributions, life insurance, sick pay, PHI, medical insurance, etc. The benefits section results, like the salary survey, can only be accessed by those who complete this part of the survey questionnaire. The results are available through a client home page link.

Membership Guidelines

You are assumed to be in the survey on a continual basis unless you let us know that you wish to withdraw. When an organisation withdraws their information is kept in the survey until their next review date. Please refer to the Membership Guidelines (link in your Client Home Page).

If you have any queries regarding this survey, please contact us on 01600 716916 or via e-mail on clients@alan-jones.co.uk

Guide to Completing the Survey Questionnaire

Please remember to give your company details in the relevant worksheet in the questionnaire.

Job Matching Notes

1. Please include UK employees on local terms - not expatriate salaries.
2. Data should be for normal job holders and should not be for "red circles", anomalies, etc.
3. If your job match works only part-time, please give the full-time equivalent salary.

Data Input *Please give data in the columns as indicated below:*

1. **Job Match Identifier (Optional)**

Where you have a code which identifies the job holder you have matched to the survey job role, and you would like to have this information for future reference, give it here and we will add it to the database. This information will not be used by us except to help you identify your matches.

2. **Job Match (+,=,-)**

In this column of the questionnaire please indicate your assessment of the job match, i.e. as compared with the job specification does your job match have more responsibility (+), is the job a good match for the generic job description (=) or does your job have less responsibility (-) than described.

3. **Number of Job Holders**

Show the number of job holders against each salary. If there are job holders with the same salary, bonus, car, etc., these may be grouped.

4. **Basic Salary**

Give annual basic salary, i.e. monthly contractual pay x 12. Exclude any shift and overtime pay. Include any fixed elements of salary paid as part of monthly pay, e.g. London weighting. **Give full-time equivalent for any part-timers.**

5. **Actual Bonus Paid**

Please give additional cash paid to the job. This may include company bonus, Christmas bonus, profit share, performance bonus, etc. Bonus may be variable or fixed but do not include car allowance, shift or overtime pay or other cash paid to an individual for activity which is not part of the job, e.g. first aid payments. Express as an annual amount. Give the most recent 12 month figures available to you. Give full-time equivalent for any part-timers.

6. **On Target Bonus %**

Please give the percentage of basic pay that would be paid as bonus if the job holder/company achieves given targets.

7. **Minimum Bonus %**

Where your scheme has a range of possible bonuses, please give the percentage of basic pay that would be paid as a minimum bonus (i.e. where the individual/group fails to meet the on-target bonus and below which bonus would be 0).

Food & Drink Salary & Benefits Survey

8. **Maximum Bonus %**

Where your scheme has a range of possible bonuses, please give the percentage of basic pay that would be paid as a maximum bonus (i.e. where the individual/group exceeds targets.)

9. **Annual Shift Payment (£ or %)**

Please give the annual shift payment. If you are unable to give the annual amount please give premium paid as a percentage of basic pay.

10. **Shift Pattern (1-4)**

Please indicate the shift pattern operated from the following list. If the pattern is not listed please give details of the shift pattern worked.

1 = 7 Day 24 Hour Working
2 = 5 Day 24 Hour Working

3 = Double Days
4 = Nights

11. **Weekly Hours**

Please give the contractual weekly hours worked by the job holder/s.

12. **Car List Price**

Give the list price of the typical/representative company car for which the job holder is eligible. Give the current list price of the car which is offered (even if the job holder takes a cash allowance instead of a car or trades up/down). Exclude delivery, road fund licence and number plates. If in doubt quote the make and model.

13. **Car Lease Value**

Where your car policy operates only with car lease values and you are unable to give information on the typical or benchmark car use this column to give the annual lease cost.

14. **Car Allowance**

Give the annual amount offered/paid as an alternative to a company car. Give this figure even if the car option is taken. Please quote as an annual amount.

15. **UK/European/International Responsibility (UK/E/I)**

Please indicate where you can if the jobs matched predominantly have UK only responsibility or if they have additional, functional responsibilities in Europe or internationally.

16. **Location of Job Holder**

Where the location of the job holder is different to that shown in the Company Information section of this questionnaire, please indicate here which location is appropriate for your job match:

1 = Inner London
2 = Inside M25
3 = South East
4 = East of England
5 = South West
6 = Wales
7 = West Midlands

8 = East Midlands
9 = Yorkshire & the Humber
10 = North West
11 = North East
12 = Scotland
13 = Northern Ireland

17. **Specialism (Technologists only)**

Please give specialism, e.g. Food, Packaging.

18. **Alternative Job Title**

Please give your own company's job title for each match.

Level Structure & Definitions

A level structure has been devised for the Alan Jones survey jobs. Each job has been assigned a level and the levels are described in the table below. The levels have been matched across to Hay Point ranges and to Willis Towers Watson levels. You can analyse the survey jobs by level in Instant Analysis (either the whole survey or by function). You can see the job titles by level and function in the next table and the job level is shown with each job description and also shown in the survey output.

Level	Level Definition	Definition/Reporting Relationships	Qualifications	Experience	Other Skills	Hay Point Range	Willis Towers Watson Level
Level 1	International/Corporate Level not included in survey						
Level 2	Managing Director					1218-1648	
Level 3	Director	Member of the legally constituted Board of Directors of the UK company or a member of the executive decision-making committee of a UK company who has status and remuneration equivalent to a Director. Reporting to Managing Director				913-1235	
Level 4	Head of Function	To match this level job holders must have responsibility for a large function/department and with Level 5 jobs reporting. Reporting to Director Level. This level may only be present in larger organisations. May be called Director of Function or Associate Director in some companies				800-1100	16
Level 5	Senior Management	Senior role with functional responsibilities. Job holder will make significant policy decisions for the function. Managers at this level will be responsible for a significant department with direct and indirect reports and including professionally qualified staff. Reporting to Director or Head of Function level. In all but the largest organisations, this level will be the most senior in the function below Director		Experienced managerial position; job holder would normally have had considerable appropriate experience		691-935	14/15

Level Structure & Definitions cont'd

Level	Level Definition	Definition/Reporting Relationships	Qualifications	Experience	Other Skills	Hay Point Range	Willis Towers Watson Level
Level 6	Management/ Senior Professional	Normally reporting to a level 5 or higher. Managers at this level will be responsible for a number of direct and indirect reports including professionally qualified staff. If Senior Professional may report to a manager who does not have the same level of expertise. Senior Professionals at this level may have some subordinate staff but not necessarily	Graduate or equivalent often with an appropriate post-graduate qualification. Professional staff will have appropriate professional qualification. At this level, scientific staff will normally be PhD level	Well-experienced. Will be a recognised expert in their field. Likely to have had 5 years' relevant experience		537-727	13
Level 7	Junior Management/ Established Professional	Normally reporting to a level 6 or a level 5 role. In Management this level will normally be directly responsible for a team of staff (possibly including team leaders if large numbers within the team). At this level Professional staff would not require close supervision and may oversee the work of/give advice to more junior colleagues/supervise a small number of subordinate staff	Graduate or equivalent often with an appropriate post-graduate qualification. Professional staff will have appropriate professional qualification. At this level, scientific staff will normally be PhD level	In professional positions, this is the Established level where, as a rough guide, we would expect job matches to have at least 4 years' experience in the same or similar job role		435-588	11/12
Level 8	Senior Supervisor/ Development Professional/ Non-professional Established	Normally reporting to a level 7 or a level 6 position, this level will have responsibility for a small group of staff or may be a supervisor in a large department. The job holder at this level receives greater supervision than the Established level and is expected to make further progress in the job	Graduate or equivalent often with an appropriate post-graduate qualification (or may still be working toward professional qualification). Professional staff will have appropriate professional qualification. At this level, scientific staff will often be PhD level	In professional positions this is the Development level and, as a guide, we would expect job matches here to have between 2 and 4 years' experience in the same or similar job role		368-498	10

Level Structure & Definitions cont'd

Level	Level Definition	Definition/Reporting Relationships	Qualifications	Experience	Other Skills	Hay Point Range	Willis Towers Watson Level
Level 9	Supervisory/ Entry Level Professional	Normally reporting to a level 7 or higher, this is a first step in Management and Team Leaders typically would be matched here. In the professional structure, Entry levels are matched here. These job matches are not new graduates	Graduate or equivalent, expected to make progress toward an appropriate post-graduate qualification	To be a match must have had up to 12 months' experience as new graduates before moving to this role. To be a match at Entry level job holder would normally have less than 2 years' experience and be expected to make significant progress in the role		321-434	9
Level 10	Graduate Entry/Skilled Supervisory/ Senior Support Staff	Normally reporting to a level 8 or level 7 position, at this level Graduate Entry staff will be closely supervised and expected to make significant progress in work. Skilled supervisory job holders will have day to day control of the work of group supervised ensuring that given targets are met	Graduate or equivalent/senior support staff level	Skilled supervisory levels		277-375	7/8
Level 11	Administration	Expected to work with minimal supervision and be able to oversee work of less experienced/more junior staff	A level/City & Guilds/NVQ level 3	Likely to have had a minimum of 5+ years' relevant working experience	Excellent keyboard and IT skills using range of standard software		6/7
	Craft	Expected to work with minimal supervision and be able to oversee work of less experienced/more junior staff	Minimum HNC level	Experienced	Technically-able craftspersons		
	Production/Warehouse	In production, packaging and warehouse, roles at level 11 would have supervisory responsibility	Numerate and literate with GCSE and/or equivalent NVQ qualifications	Likely to have had 5+ years' experience			

Level Structure & Definitions cont'd

Level	Level Definition	Definition/Reporting Relationships	Qualifications	Experience	Other Skills	Hay Point Range	Willis Towers Watson Level
Level 12	Administration	Likely to have some routine data entry/paperwork/calls but is expected to work without close supervision and to deal with routine problems	A level standard education or NVQ level 3 in Administration Skills	Likely to have had a minimum of 4 years' work experience	Keyboard and IT skills using standard software		5/6
	Craft	Non-supervisory position with no others reporting	City & Guilds apprenticeship or equivalent				
Level 13	Administration	Expected to be able to work without very close supervision	GCSE standard education or NVQ level 2 in Administration Skills	Likely to have had a minimum of 2 years' work experience	Keyboard and IT skills using standard software. Likely to be dealing with a significant volume of routine data entry/paperwork/calls		4/5
	Shop Floor	Non-supervisory position with no others reporting. May provide guidance to less-experienced job holders. Normally would report to a level 11	Must be numerate and literate with basic GCSE and/or equivalent NVQ qualifications	The roles at level 13 would normally require at least 3 months' working experience for the job holder to become competent			
Level 14	Administration	Closely supervised in work	GCSE standard education or NVQ level 1 in Administration Skills	Limited work experience	Keyboard and basic IT skills using standard software. Likely to be dealing with large volume of routine data entry/paperwork/calls		3/4
	Shop Floor	Non-supervisory position with no others reporting. Normally would report to a level 11	Must be numerate and literate with basic GCSE and/or equivalent NVQ qualifications	The roles at level 14 would normally require less than 3 months' working experience for the job holder to become competent

Knowledge/Skills/Experience

Graduate level education or equivalent

Extensive appropriate experience, e.g. in environmental management

Production

In each job, the survey code for each job is shown followed by the survey job title.

Job Number	Job Title	Job Level
20.01.01	Mechanical Craftsperson	12
20.01.02	Electrical Craftsperson	12
20.01.03	Multi-Skilled Craftsperson	11
20.01.04	Senior Craftsperson	10
20.01.05	Maintenance Team Leader	8
20.10.11	Engineer	8
20.10.21	Senior Engineer	7
20.10.31	Engineering Manager	7
20.10.41	Head of Engineering	4
20.15.01	Production Low Skilled Operator	14
20.15.02	Production Medium Skilled Operator	13
20.15.03	Production Skilled Operator	12
20.15.04	Production Senior Operator	12
20.15.05	Production Team Leader	9
20.15.10	Assembly/Packaging Low Skill Operator (Entry Level)	14
20.15.11	Assembly/Packaging Trained Operator	13
20.15.12	Assembly/Packaging Team Leader	10
20.20.31	Shift Manager	7
20.20.32	Lean Leader	7
20.20.33	Operations Manager	6
20.20.34	Technical Manager	5
20.20.41	Head of Operations	4
20.30.51	Operations Director	3

Function 20 - Production

20.01.01

Mechanical Craftsperson

Survey Level

12

Job Purpose/Typical Responsibilities

- To respond as required when a problem arises on site requiring mechanical skills
- To deal with planned maintenance tasks as delegated
- To participate in site operations, e.g. installation of new equipment, clean downs, etc.
- Match here a qualified Craftsperson with mechanical skills, e.g. Fitter

Knowledge/Skills/Experience

City & Guilds/HNC or equivalent

Job holders will be fully qualified and able to work independently with some direction and supervision

20.01.02

Electrical Craftsperson

Survey Level

12

Job Purpose/Typical Responsibilities

- To respond as required when a problem arises on site requiring electrical skills
- To deal with planned maintenance tasks as delegated
- To participate in site operations, e.g. installation of new equipment, clean downs, etc.
- Match here a qualified Craftsperson with electrical skills, e.g. Electrician

Knowledge/Skills/Experience

City & Guilds/HNC or equivalent

Job holders will be fully qualified and able to work independently with some direction and supervision

Function 20 - Production

20.01.03

Multi-Skilled Craftsperson

Survey Level

11

Job Purpose/Typical Responsibilities

- Match here any job holders who are multi-skilled so can perform:
 - the full range of mechanical tasks including fitting, welding, rigging, pipe fitting **OR**
 - the full range of electrical and instrument tasks including 415 volt electrics, instrument calibration, maintenance and troubleshooting **OR**
 - complex tasks associated with main core skill (mechanical or electrical/instrument) and non-complex tasks in the other skill area, e.g. a mechanical craftsperson would be able to perform non-complex electrical/instrument tasks.

Knowledge/Skills/Experience

City & Guilds/HNC or equivalent

Job holders will be fully qualified and able to work independently with some direction and supervision

20.01.04

Senior Craftsperson

Survey Level

10

Alternative Title/s

Craft Technician

Job Purpose/Typical Responsibilities

- Job holders matched here will be: craftspeople promoted from the skilled level and this would normally apply only to a small proportion of the skilled work force.
- The job holder is expected to exercise a higher level of problem solving and skill than a standard Craftsperson, is given more responsibility and is expected to work without close supervision.
- Job matches may be single skilled or multi-skilled.

Knowledge/Skills/Experience

City & Guilds/HNC or equivalent

The job holder is a trained and experienced Craftsperson

Function 20 - Production

20.10.11

Engineer

Survey Level

8

Alternative Title/s

Maintenance Engineer
Project Engineer
Building Services Engineer
Production Support Engineer

Job Purpose

To provide technical support to production.

Typical Responsibilities

- **Either:** Responsible for multi-disciplinary maintenance engineering work (or projects) for a defined area within a manufacturing or production services centre
- **Or**
- Provides site-wide technical expertise in a single engineering discipline
- To be responsible for budgetary control of cost centre for maintenance expenditure and assists Operation Managers in setting capital and revenue budgets
- To manage the implementation of any regulatory requirements of plant, machinery and services. May manage external consultant engineers and others working on projects
- To ensure the planned availability of plant, machinery and services to the satisfaction of client groups
- To be responsible for suggesting and implementing engineering improvements to plant machinery or services, to enhance customer service, quality and safety levels
- May supervise Engineering Technicians and Craftsmen directly

Knowledge/Skills/Experience

Graduate or equivalent, leading to chartered membership of an engineering institute

Initial training may be electrical, mechanical or instrumentation and control

Likely to have had 3-5 years' broad practical experience

Will have a specialist knowledge in single engineering discipline

Good communication skills within their own department and with client groups and external contractors

Function 20 - Production

20.10.21

Senior Engineer

Survey Level

7

Alternative Title/s

Senior Maintenance Engineer
Senior Project Engineer
Senior Building Services Engineer
Senior Production Support Engineer

Job Purpose

To provide technical expertise to production.

Typical Responsibilities

- **Either:** Responsible for multi-disciplinary maintenance engineering work/projects in central capacity within a manufacturing or production services centre
- **Or**
- Provides site-wide expertise in a specialist engineering function
- To ensure that statutory, Company and site standards are clearly communicated and adhered to within their area of operation
- To be responsible for the acceptance of new engineering equipment into the centre, ensuring that all safety, maintenance and training aspects are fully covered
- To be responsible for budgetary control of central cost centres for maintenance and/or project expenditure. To advise Engineering and Production Operations Managers in setting capital and revenue budgets
- To be responsible for encouraging, suggesting and implementing engineering and operational improvements to plant, machinery, services and procedures
- May supervise significant numbers of Engineering Co-ordinators, Technicians and Craftsmen as a Team Manager. If working on projects will supervise a team of Project Engineers and support staff

Knowledge/Skills/Experience

Chartered Engineer or equivalent

Job matches here are likely to have had a minimum of 5 years' appropriate working experience

Will have a very broad knowledge of all engineering disciplines

Good communication and interpersonal skills to communicate with a wide range of people and levels both inside and outside their centre

Function 20 - Production

20.10.41

Head of Engineering

Survey Level

4

Job Purpose

To be responsible for the engineering function. To provide leadership to the engineering team ensuring that all services are provided to the company to appropriate standards, on time and within budget.

Typical Responsibilities

- To have primary responsibility is for the management of the Engineering function across the site (possibly Company, dependent on size)
- To provide medium and long term strategic direction, co-ordination and control for the function, in consultation with appropriate senior management
- To establish Company standards and policies for the area with reference to legislative regulations and best industrial practice and establishes procedures to ensure they are adhered to throughout the Company. To liaise with appropriate authorities
- To have management responsibility for the Engineering function including recruitment, appraisal and development of immediate reports. Will be responsible for providing direction and leadership to staff in the function as a whole
- Member of site leadership team

Knowledge/Skills/Experience

Chartered Engineer or equivalent

Job matches will have had extensive relevant experience in engineering

Extensive experience working in management

Good knowledge of all engineering disciplines

Good communication and interpersonal skills to communicate with a wide range of people and levels both inside and outside their centre

Function 20 - Production

20.15.05 **Production Team Leader**

Survey Level 9

Job Purpose/Typical Responsibilities

- To be responsible for a team of Operators
- To ensure that members of the team achieve the required levels of service to the company in terms of achieving production targets for quality, quantity and schedule
- To be responsible for ensuring production area is kept clean and tidy
- To be responsible for ensuring members of team adhere to company and statutory health and safety regulations
- To liaise with other functions to co-ordinate activities affecting production area, e.g. maintenance
- To be responsible for holiday rotas, cover rotas, etc.

Knowledge/Skills/Experience

Job matches for this job are likely to have reached this level through a combination of competence and experience working within manufacturing

Typical job matches are likely to have a number of years of relevant experience

Demonstrates competence in own area

Typically works with moderate guidance in own area of knowledge

20.15.10 **Assembly/Packaging Low Skill Operator (Entry Level)**

Survey Level 14

Job Purpose/Typical Responsibilities

- This is the unskilled assembly/packaging role where little or no training or experience is required. This is the entry level for new starters.
-

20.15.11 **Assembly/Packaging Trained Operator**

Survey Level 13

Job Purpose/Typical Responsibilities

- This is the recognised trained assembly/packaging worker where the role has been achieved typically by a combination of training and experience of at least 6 months.

Function 20 - Production

20.15.12

Assembly/Packaging Team Leader

Survey Level

10

Job Purpose/Typical Responsibilities

- To ensure that members of the team achieve the required levels of service to the company in terms of achieving agreed targets for quality, quantity and schedule
- To be responsible for ensuring packaging area is kept clean and tidy
- To be responsible for ensuring members of team adhere to company and statutory health and safety regulations
- To liaise with other functions to co-ordinate activities affecting packaging area, e.g. maintenance
- To be responsible for holiday rotas, cover rotas, etc.

Knowledge/Skills/Experience

Job matches for this job are likely to have reached this level through a combination of competence and experience working within manufacturing/assembly/packaging

Typical job matches are likely to have a number of years of relevant experience

Demonstrates competence in own area

Typically works with moderate guidance in own area of knowledge

Function 20 - Production

20.20.31 **Shift Manager**

Survey Level 7

Alternative Title/s Shift Leader
Team Manager

Job Purpose

To be responsible for the day to day management of a production area within a manufacturing centre unit.

Typical Responsibilities

- To manage a team of supervisors and operatives including appraisal, ongoing training and development, planning team activities, recruitment, etc.
- To ensure that production schedules are produced and met by efficient organisation of staff and material resources and production equipment
- To ensure agreed quality, safety and manufacturing practices are adhered to and timescales are met by efficient planning and liaison with other internal contacts, e.g. Production Planning, Warehouse and Distribution
- To be responsible for handling production problems, e.g. liaison with Engineering, Quality, as necessary
- To identify and implement plans or process improvements or necessary systems projects
- Reports to Operations Manager within manufacturing centre. Carries out activities with little supervision
- If you operate with shifts, the job holder may work shifts

Knowledge/Skills/Experience

Relevant technical or scientific degree or equivalent

Typically will have had several years' experience in a relevant functional area, e.g. production, QA

In-depth knowledge of production processes within area plus relevant manufacturing, quality and safety standards

Very good knowledge of function and structure of other production areas and production support functions

Function 20 - Production

20.20.32

Lean Leader

Survey Level

7

Alternative Title/s

Lean Team Manager
Operations Excellence Leader

Job Purpose

To be responsible for the management of the lean programme to ensure delivery of sustained benefits to UK operations.

Typical Responsibilities

- To manage the lean programme
- To identify key step changes to be made and the sequence and strategy to deliver the changes
- To lead the Lean Team
- To deliver change management to senior leaders, providing knowledge and direction and to secure commitment
- To be responsible for all aspects of programme including tool identification, education, evaluation of benefits, tracking of benefits
- To be responsible for ensuring lean processes are adopted
- To develop root cause problem solving for continuous learning capability at all levels in the organisation

Knowledge/Skills/Experience

Likely to be a graduate in an appropriate discipline or an individual with equivalent qualification
A typical job match will be recognised as a Lean expert with experience of initiating and delivering change
Job holder will have had significant manufacturing experience including experience at management level
Technical expertise in their area, with a very good understanding of activities in the remainder of the function

Function 20 - Production

20.20.41

Head of Operations

Survey Level

4

Alternative Title/s

Head of Production
Manufacturing Centre Manager

Job Purpose

To be responsible for running a manufacturing centre.

Typical Responsibilities

- To be responsible for the day to day running of a manufacturing centre, normally containing several manufacturing units
- To be responsible for the direction and co-ordination of the centre and its priorities within parameters set by the Factory Manager or Director
